

## Introducing the Laurentian Environmental Center

The Laurentian Environmental Center is a public residential educational facility that combines science, environmental education, leadership training and outdoor skills recreation programs.

It is accredited by the North Central Association of Schools and Colleges. It is owned and operated by the Moundsview Public Schools for use by people from throughout Minnesota and the Midwest.

Education programs are hands-on, discovery-oriented and aligned with Minnesota state graduation standards. Qualified and caring LEC staff lead instruction through an inquiry method of teaching and learning. Each of the program staff holds a degree in one or more of the following areas: biology, natural resources management, outdoor recreation and education, educational psychology, environmental studies, or education.
