GUIDELINES

When planning a banquet, the location must be reserved through the Community Education Department at 651.639.6020.

Once the location is reserved, arrangements for banquets can be made through the District Food Service Department at the District Service Center (651.639.6011). Please allow 15 working days notification for banquets.

A preliminary estimate of the number of meals requested must be submitted when the banquet is scheduled. A firm figure of the number to be served must be submitted to the Food Service Department a least five days prior to the scheduled event. Five percent excess will be prepared in case of need.

Exception: When box lunches or dinners are ordered and delivered; only the number ordered will be sent.

During vacation periods of one week or longer, kitchen facilities will not be available unless special arrangements are made.

Alternate menus are also available. Contact the Food Service Office for a price quotation.

Any use of the district kitchens must be arranged through the Food Service Office. Any outside caterer using the district kitchens must fill out a kitchen use form (obtained from the Food Service Office). Also a district food service employee must be hired to supervise the operation of equipment and use of the facilities. Hourly rate is \$38.00 per hour.
