BG-0202 Public Participation at School Board Meeting - Board Work Sessions

The School Board meets approximately one time per month in an informal meeting to discuss School Board work. Agendas for work sessions are posted in the office of the Superintendent. Notice of work session meetings will meet all requirements of formal meetings. Public attendance at School Board work sessions is encouraged. Whenever personal schedules permit, School Board members will remain after work sessions to engage in informal discussion with community members in attendance.

Rationale:

All School Board work sessions are business meetings held in public – not public forums. It is therefore, advisable that guidelines be established so that public input is orderly and productive and so that special interest groups are not allowed to dominate the proceedings of the School Board.
