

Mounds View Public Schools Ends and Goals Policy

EG-0106 School Start Times

It is the policy of the Mounds View School District that beginning in the year 2000-2001 and every three years thereafter, the School Board will determine whether or not to rotate school start times for the ensuing three years. To allow time for family and school planning, the decision will be made one year prior to the effective date. Criteria for decision-making will be established by the Board prior to the time the administration develops its recommendation for Board consideration.

Rationale:

The School Board will review the various school start times as they relate to efficiency, budget, community requests and student wellness.

Adopted: June 22, 1999
