EG-1104

Student Assessment

Assessment of student achievement, along with program evaluation, research and system accountability, are integral parts of the District's instructional program. The District's assessment program will contain standardized testing of achievement to guide instruction; improve the performance of individual students, schools and the entire District; provide parents with meaningful information regarding student performance; and demonstrate accountability to the community.

Rationale:

Teachers, parents and the community, as well as students themselves, have an interest in measuring levels of student performance relative to local and State expectations, and in being accountable for the continuous improvement of individuals, schools and the entire District.
