### III. Guidelines For Facility Use Application

- A. All groups must have an approved permit prior to facility use.
- B. Permit requests shall be submitted to the Community Education Department at least **eight (8) days** prior to the first date facilities are to be used, and will be approved on the basis of priority established in Policy EG-5152.

### IV. School and Organization Guidelines

It may be necessary when school emergencies arise to preempt usage. These guidelines are intended to encourage the practice of early planning to avoid conflicts with other organizations and to minimize the frequency of preemptions by school organizations which tend to negatively impact all community groups.

- A. School principals are required to provide to the Community Education Department a calendar of all known events and activities for the next school year not later than the last day of May of each calendar year.

- D. School principals may reserve only the space(s) necessary to accommodate the specified event or activity. Building-wide activities (e.g. Back to School Night, etc.) or activities that require all available parking spaces are the only activities that will warrant scheduling the entire building.
- E. The Community Education Department reserves the right to reschedule an activity in order to accommodate requests from other community groups.
- F. The Community Education Department will schedule a meeting of all District 621 youth athletic associations and municipal recreation departments each Spring to define seasons, review participation numbers, and set scheduling guidelines.
