

Mounds View Public Schools Ends and Goals Policy

EG- 2103 **Co-Curricular Opportunities**

Mounds View Public Schools will provide opportunities for student enrichment through participation in co-curricular programs. These opportunities will be consistent with the constitution and bylaws of the Minnesota State High School League, applicable state and federal law and Mounds View District policy. These opportunities are available to students in the 9th through 12th grade. Opportunities may be made available to 7th and 8th grade students that meet qualifications to be determined by the Administration and set forth in regulation, so long as such participation will not limit opportunities available to 9th through 12th grade students.

Rationale:

1. Involvement in co-curricular programs is an asset to student emotional, intellectual, and social development.
2. Broad participation in these activities should be encouraged.
