EG-5150 Naming School District Facilities

The process of nomination will be in writing and will contain the rationale for such nomination and requires approval of the School Board.

Once a facility has been officially named, it will not be renamed except for compelling reasons to be determined by the School Board.

Rationale:

Naming School District facilities, for example buildings, wings, rooms, playgrounds, is a matter of great importance, and one that deserves critical attention. Parents, staff, students and members of the community sometimes wish to recognize or memorialize individuals or events through the naming of a facility or portion of a facility.
