

Family Learning Program

If you're a parent and would like to study for your high school diploma or GED, the Family Learning Program will help you balance being a parent and a student. Through the Adult Basic Education program, you'll work toward your educational goals. Through the Early Childhood Family Education program you and your children will participate in fun and learning activities and you'll participate in parent education discussions. Lunch and limited transportation is provided. Show your children by example how important family learning is and how empowering it can be.
