BACKGROUND *(If necessary, additional information is attached)*

Over the past year, we have been placing an increased emphasis on the importance of personalizing the learning experience for students. A number of different steps have been implemented to address this issue and the presentation this evening will focus on the work which has been done to create a Personal Learning Plan (PLP) template. This version of the PLP is designed for use at the middle school and high school levels. It has the capability to set goals and monitor student progress toward meeting district and state graduation standards and support individual student planning for post-secondary success.
