

Mounds View Public Schools Board Governance Policy

BG-0204 Focused Forum

The School Board periodically will provide for an extended time period within a public meeting for public input and discussion regarding a specific School Board topic. Notice of such topic will be provided upon setting the agenda for the meeting, if not sooner. This time period will be approximately one hour in length. All rules regarding public participation at School Board meetings will apply to the Focused Forum.

Rationale:

It is important for the School Board to provide public engagement with focus questions determined by the School Board. The Focused Forum is a companion process option to the Open Forum.
