

Summer Naturalist Internship!

****Provides housing, food, and \$500 a month****

Summer Naturalist Internship

Job Summary

To provide an environmental education experience through an interactive learning process to diverse groups of students.

Qualifications

- Currently enrolled in college.
- Interest or experience in outdoor recreation activities and environmental education.

Requirements

- Knowledgeable in environmental and firearm/hunter safety education and to be versed in outdoor recreation skills such as fishing, canoeing, etc.
- Chaperone in the cabins for 5 weeks, during the Forkhorn Camps (dates listed on website).
- Assist students during study time.
- Teach students outdoors, in varying weather conditions.
- Ability to work independently with little work direction with small and large groups and to create a positive and safe learning environment.
- Competent in communication skills with an ability to understand, apply, and explain policies, objectives, rules, and regulations of assigned program and activities.
- Knowledgeable in education principals and learning styles and practiced in effective teaching techniques.
- Ability to interact with program participants and staff in a positive, professional and respectful manner.
- Responsible for developing an expertise in LEC curriculum and instruction and to review current LEC curriculum, as assigned.
- Responsible for learning and implementing appropriate management of student behavior.
- Assists in first aid to participants who are injured on site.
- Participates in clean-up of lodge and classrooms with LEC staff. Including maintenance of classroom and program equipment.

Additional Skills

- Lifeguard
- CPR/First Aid
- ATV certification
- Teaching and/or outdoor education background
- Hunting and fishing background

Physical Requirements

Regularly required to sit, stand, walk, talk, hear, operate a computer and other office equipment, reach with hands and arms, and must occasionally lift and/or move up to 20 pounds and regularly exposed to the elements.

Additional Information

The Summer Naturalist Intern will gain experience working with elementary-age through adult learners at Laurentian Environmental Center (LEC) located in Britt, MN (3.5 hours north of the Twin Cities). Laurentian staff will help interns gain experience in broad aspects of environmental education and residential environmental learning centers. Owned and operated by the Mounds View School District, LEC is located on Arrowhead lake and is adjacent to the Superior National Forest.
