

Flexible Learning Opportunity Day - Choice Board #1

Literacy	Math	Create	Move	Community
<p>Preview a new book by looking only at the pictures. Tell someone (person, stuffed animal, or pet) what you think the book will be about.</p>	<p>Write five ways that you can use addition to make the number 20.</p>	<p>Build a fort with chairs and a blanket, then read a book inside it.</p>	<p>Jump as far as you can and measure it using your feet.</p>	<p>Draw a picture of what you look like in each of the ZONES (green, blue, yellow, red).</p>
<p>Read or look at a favorite book for 20 minutes.</p>	<p>Play a board game or complete a puzzle.</p>	<p>Gather 10 to 20 small objects/toys and see how high of a tower you can build with them. Draw the tallest tower you made.</p>	<p>Teach someone a movement game you play at school.</p>	<p>Write a thank you card to someone in your life.</p>
<p>Interview someone (in person, on the phone, etc.) about their favorite book.</p>	<p>Ask a grown-up for a pile of coins. Sort the pile into different groups. - How did you sort them? - How else could you have sorted them? - Make a graph of what coins you have. -Count the money.</p>	<p align="center">CREATE YOUR OWN ACTIVITY</p>	<p>Dance or sing to your favorite song.</p>	<p>Play a game with someone.</p>
<p>Draw a picture and tell a story about that picture to someone or write the story down and share it.</p>	<p>Make a number scroll. Write numbers from 0 to as high as you can go.</p>	<p>Look outside and then draw/create a picture of what you saw. Use craft materials to make it as interesting as possible.</p>	<p>Do this math problem: Your age x 10 Now, jog in place for that many seconds.</p>	<p>List a kind comment about each person in your class.</p>
<p>Go on a letter or word hunt in your house. Try to find something that begins with each letter of the alphabet.</p>	<p>Write your own story problem and solve it.</p>	<p>Make up new lyrics to a tune you know.</p>	<p>Get your body moving! Count to 10 or 20 while you jump, twirl, clap, or balance on one foot, etc.</p>	<p>Do something to show your responsibility at home (without being asked).</p>

Flexible Learning Opportunity Day - Choice Board #2

Literacy	Math	Create	Move	Community
Read some picture books to someone (ex: family member, pet, stuffed animal). Use a different voice for the characters.	If you have a device, create a video that teaches a math skill or strategy you know how to do.	Build a bridge using Legos, blocks, or any other building materials you might have at your home. Test how much weight it can hold. Modify and test it again.	Create a 10-minute exercise routine using different movements. Teach the routine to someone at home.	Write a letter to your principal about something you think needs to improve at your school. Include your ideas and solutions.
Retell a story to a friend or someone in your family.	Find objects in your home to make patterns with.	Write a thank-you note to someone who has been helpful to you or has been a good friend. Tell them why.	Build a snow sculpture that is as tall as you are.	Ask your parent or caregiver what chores you can do for them. Complete those chores to show your responsibility.
Act out a scene or chapter from a book you are reading. Practice and then perform it for a family member or friend.	Create a design that uses a repeating pattern or tessellation. Color it to show dimension.	CREATE YOUR OWN ACTIVITY	Do a crab walk across the room and back while giving a stuffed animal a ride. Try not to let it fall.	Make a game board and rules for a new game to play with someone else.
Learn three new words in a new language.	Help fold the laundry and sort the items into groups.	What do you want to be when you grow up? Build something that could help you in that job. Draw a picture and write a description of it.	Create a fort in your home that stands on its own and is big enough for you to fit inside. Then clean it up. :)	Interview a relative or neighbor about a historical event they lived through.
Create a storyboard for a game, presentation, creative story, or summary of a book.	Ask your parent or caregiver for a recipe. Either double it or cut it in half, using your knowledge of fractions.	Build something with Legos, blocks, toothpicks, paper, or any other material in your home. Use a design process to plan, build, and modify your object.	Pick your favorite song and create a dance that goes with it. Practice a few times. Then perform your dance for a family member.	Journal about your feelings. What's going on in your life? What are your goals for yourself? How are you going to reach those goals?
