

Embracing all students through The “Pawer” of Together

Preparation. Partnerships. Pinewood.

We practice preparation.

At Pinewood, race, class or disability will not dictate students' success. We are committed to sending all of our students to Edgewood Middle School and Irondale High School prepared for post-secondary success.

We forge partnerships.

Staff, parents and the community work collectively as a team to embrace all students and share accountability for their success. Continuous learning guides our way, as we seek to improve through reflective practice.

We are Pinewood.

Our diverse school embraces students representing many different cultures. We welcome all learners with student-centered practices and culturally responsive approaches.

Welcome to your school.

The Equity Promise:

Ensuring all students are prepared for post-secondary success regardless of race, class or disability.
