Project:

The Beautiful Project – Coming Summer 2019 to New Brighton

“The Beautiful Project”, founded by native MN muralist Pamela Sukhum, combines perspectives from community members when asked the simple question of what they find to be beautiful in their own world. Each participant contributes to the content with their own pieces of art and Pamela creates the outline for the final art piece using those contributions. After the outline is complete, all participants and volunteers work together to fill in the painting using techniques and theory taught by Pamela. “The Beautiful Project” has been featured in communities worldwide with the goal of bringing people together by creating art and finding beauty. Participants will include local art students, Community Partners with Youth, RISE and other volunteers and partners. When completed, the mural will be approximately 30 feet tall x 30 feet wide and is set to be completed by August 2019 at the latest.
